CO-CURRICULAR INFORMATION BOOKLET

CO-CURRICULAR IN 2020

At Court Grammar School, we understand the value in the holistic development of each child. Our co-curricular program is designed to provide students with an opportunity to participate in clubs and activities which are not part of the regular school curriculum.

These co-curricular activities are usually focused on assisting in the development of a child, not only academically but also socially and emotionally.

The following are brief explanations outlining the programs on offer in 2020

Students interested in joining a co-curricular activity should speak to the staff members associated with each activity or club.

Students and parents should keep watch on the SEQTA for information such as meeting times and locations for the different activities or clubs.
